

It's been a long time coming and the anticipation is, to put it mildly, high! Yes, Vice By Nevada unleash the long-awaited 'What Happens Behinds Closed Doors' and the wait is finally over. With this album it looks like they can finally silence their critics. Check out their fantastic feature on page 54, then read the full album review on page 69 and see what the band have to say for themselves.

Also, we're showcasing 10 rising bands that'll be shaking up the next 12 months (see page 16), and getting real with This Is Colour (page 58) as they prepare to sky-rocket. Enjoy.
